

# Biome Project

1. Watch the following video on major biomes of the world. Record at least 3 facts on each biome mentioned in the video.

<https://www.youtube.com/watch?v=0fb8143ndo8>

2. Watch the following Brain Pop Videos and take the Review Quiz that goes with each video. Record your answers for each video. If you miss a question, write a true statement about the question you missed to help you remember the concept you missed. Be honest. **Username =wlms/ pass = westlake**

- a. Land Biomes
- b. Tundra
- c. Taiga
- d. Tropical Rainforests
- e. Deserts
- f. Savannah
- g. Underwater World

3. Do research on the following biomes:

- a. Tundra
- b. Desert
- c. Savanna
- d. Tropical Rainforest
- e. Temperate Forest
- f. Coral Reefs (Marine)

4. For each biome record the following information:

- a. Describe the climate of the biome
  - i. include annual amount of rainfall in the biome
  - ii. include temperature ranges of the biome
- b. Describe the soil that exists in that biome
- c. Name 2 animals that live in the biome and 2 adaptations those animals have for survival in that particular biome
- d. Name 2 plants that live in the biome and 2 adaptations those plants have for survival in that particular biome

5. Use the following websites listed below to help you do research on specific biomes:

<https://askabiologist.asu.edu/explore/biomes>

<http://kids.nceas.ucsb.edu/biomes/index.html>

<http://eschooltoday.com/ecosystems/what-is-a-biome.html>

<http://www.ucmp.berkeley.edu/glossary/gloss5/biome/>

6. Don't forget to include your colored Biome Map Coloring Worksheet
